for kids!

**It's never too early to start introducing financial skills and planting the seed for a successful future.**

With their first earnings comes their first financial responsibility. Birthday and holiday gifts, lemonade stands, and allowances are all ways your little one may earn their own money.

## **Then what?**

When you start a Child Savings Account with Empire ONE FCU, we add the minimum savings balance of \$25.00 for you, so your child can start saving with whatever amount that they have. Every time your child deposits into their savings account, we will help them keep track in their very own savings journal!

**Visit [empireonefcu.org](http://empireonefcu.org) and click on the “Youth and Student Accounts” tab for more information**
